

Australian Solar Council

On Grid Battery Back Up Seminar

Sponsored by Latronics

| | Programme | |
|---------|--|--|
| 9:00am | Welcome & Introduction | John Grimes CEO, Australian Solar Council |
| 9:15am | The Move to On Grid Battery Support | Dr Geoff Walker Aurecon |
| 9:40am | Retrofitting Battery Backup to Existing Grid Connected Solar Systems | Dean Ervik Latronics |
| 10.10am | On Grid Storage - Economic and Return on Investment Implications | John Inglis Positronic |
| 10.40am | MORNING TEA | |
| 11:10am | Applying Energy Storage to kW and MW Scale PV Systems: Integrating Renewable Energy While Improving Energy System Reliability and Efficiency | John Wood/Sean Jobe Ecoult Energy Storage Solutions |
| 11:40am | Capacitor Energy Storage for Supporting RE Generation & Islanded Systems | Craig Harrison/Phil Madigan I S Systems |
| | Case Studies in Successful Battery Back-Up Technology | Piet De Beer Outback Power/Alpha Group |
| | Issues of Grid Support, including Case Studies | Lindsay Hart/ Gerard McAllister Selectronic |
| 12.50pm | LUNCH | |
| 1:40pm | Local Project Briefing | Local experts will look at a local case study of On Grid Battery Back Up |
| 2:25pm | What is the Role of an Energy Storage Group within the Australian Solar Council? | Panel of 5 from speakers listed above, includes participant input: What does the industry need to grow grid storage solutions? What are the parameters of the proposed energy storage group? What are the key issues for this group in the next year? |
| 3:00pm | CLOSE | |
